

# All Polished Up

**Out with the old and in with the new. Buff away all your old dead skin cells to reveal a silky smooth finish.**

**Get your body in tip top condition for the summer; give it that spring clean it needs to have the skin glowing from top to toe. Let the expert's pamper you as a first time treat, then you can continue by investing in your very own body polishing, prescribed package.**

Using our fabulous Spa Ritual range, we will start by body brushing the skin which is great for circulation and cellulite. This is followed by drizzling our warm loving oil over the body and then applying a firming scrub mask with Indonesian ginger and exotic oils, thus having an energising effect on the skin as well as exfoliating. Finally our moisturising lotion is massaged into the body to a silky velvety finish.
